## Tuition Preschool Program "3 - year - olds"

3-year-old preschool classes are designed to enhance the child's social development while introducing them to basic preschool skills.

Children participate in a variety of activities designed to meet their developmental levels. They work on color and shape recognition and identification as well as being introduced to numbers, letters and sounds.

Our 3-year-olds will practice sharing, taking turns, being away from mom & dad and how to interact and play "nice" with their friends at school.

3-year-old preschool classes lay a strong foundation for a more academically enriched 4-year-old program.
